

Case Management

How can Case Management support you?

Our team of Case Managers can act as a key contact person and an interface between agencies and their clients and will work collaboratively with every party to ensure the best outcome for the person with a brain injury - that aligns with their goals.

Our Case Managers will also work closely with service providers to ensure they are delivering the required services, including coordination across multiple agencies should it be needed.

Our approach:

- Is person-centred and person driven
- Is holistic, creating a support network that wraps around the client
- Encompasses all life domains.

As key contact person, we can provide support including:

- Recommendations for services, therapies and activities to help achieve goals
- Assistance in managing finances, completing housing applications and maintaining tenancies
- Coordination of referrals to services and the implementation of these services
- Help to determine eligibility for employment services and link with suitable providers

- Centrelink liaison and assistance with applications for payments and concessions
- Assistance to enrol in educational programs and linking to student support services
- Supporting at medical and specialist appointments
- Facilitating community integration and connections with social and support groups
- Working with corrections, and with drug and alcohol agencies.

Who is this service for:

Our Case Management Support Service is available for anyone in South Australia that is living with an acquired brain injury.

We can work with:

- Trustees
- Third Party insurers
- Exceptional needs units
- Compensation agencies
- Return to Work services, etc.

We can support with long term case management, or specific, time-limited supports to help with a particular client need.

This is a fee for service support – talk to us today to learn more about how we can support you to support the people you are working with.
