

Brain Injury **SA.**

Case Management – Personalised Support

What is our Case Management service?

Our Case Management service provides personalised support to help people living with ABI build life skills and better access community facilities and services.

Qualified case managers work closely with individuals and their families to understand their needs and tailor support to suit the individual.

Assistance can cover a broad range of services, including:

- Recommendations for services, therapies and activities to help achieve goals
- Assistance in managing finances, completing housing applications and maintaining tenancies
- Coordination of referrals and implementation of services
- Help to determine eligibility for employment services including Centrelink liaison

- Assistance to enrol in educational programs and link people to student support services
- Support attendance to medical and specialist appointments
- Facilitating community integration and helping people connect with social and support groups

Our case managers will also work closely with service providers to ensure they are delivering the required services, including coordination across multiple agencies should it be needed.

Who can use the Case Management service?

Our Case Management service is available to anyone in South Australia living with an ABI, regardless of their age on a fee for service basis.

Who runs the Case Management service?

Case Management services are provided by Brain Injury SA's team of qualified and professional case managers, who work closely with individuals, their families and services providers.
