

Brain Injury SA.

Embrace life after brain injury

10
WEEKS

Reconnect Transition Program

The Reconnect Transition Program (RTP) helps adults with a traumatic brain injury as a result of a road or motor vehicle accident, to adjust, recover and connect with the community.

The course is facilitated by a registered psychologist who is experienced in supporting individuals living with brain injury. RTP participants are also supported by trained peer mentors, who offer valuable insights from their own lived experience of brain injury and adjustment.

Topics covered include:

- neuroplasticity
- relationships
- personal values
- communication

RTP is an excellent opportunity to learn more about the brain and how to optimise recovery in a judgement-free environment. It's also a great chance to meet other people who share similar experiences.

The 10-week RTP is held three times per year and is free to attend. Sessions run from 10.30am to 1pm, with morning tea and a light lunch provided.

Brain Injury SA.

Embrace life after brain injury

10
WEEKS

youth Reconnect Transition Program

The youth Reconnect Transition Program (yRTP) helps young adults adjust to life with a traumatic brain injury following a road or motor vehicle accident.

The course is facilitated by a registered psychologist who is experienced in supporting individuals living with brain injury. yRTP also draws on the lived experience of trained peer mentors, who can offer insights from their own recovery journeys.

yRTP is an excellent opportunity to learn more about the brain and how to optimise recovery, and to connect with other

young adults who share similar experiences.

Topics covered include:

- neuroplasticity
- relationships
- mental health
- exploring work and study pathways

The 10-week yRTP is held annually and is free to attend. Sessions run from 10.30am to 1pm, with morning tea and a light lunch provided.
